

## Section 2

### **Short Biodata of the Nominee (max 500 words)**

I am a Singaporean IT and Management professional with extensive experience across diverse business and technology environments, in different countries with global MNCs.

I have more than thirty five years of work experience.

I have been a member of the SPMI Board for since 2002.

I have two Bachelors and a Master's degree.

My Master's Degree is from IIT Powai and I am a member of the IIT Alumni at Singapore.

I am one of the earliest certified PMPs in Singapore, certified since 1998.

I was one of the Evaluators for the PMI Distinguished Project Award.

I am also a CISA and a Gold Member of ISACA.

### **Short Description of how Nominee intends to contribute to the Chapter (max 500 words)**

I have been with the Treasury Function for ten years.

I have seen the Chapter grow from being in the red and almost getting sued, to what it is now.

During my years on the board, I have personally attended to almost every function, from sourcing for speakers and arranging venues to managing REP's and editing the newsletters, apart from the normal responsibilities of the treasury function.

I am thus familiar with almost every aspect of the functioning of the board.

The responsibility of the Trustee is not about helping to keep proper sets of accounts, it's about governance and fiduciary responsibility and ensuring that the substantial reserve that has been built up should not be misused.

I am confident that with my background and experience I will do justice to the role.
