

**Project Management Institute Singapore Chapter**  
20 Bendeemer Road, #04-02 CyberHub, Singapore 339914

**Section 2:**

Short bio-data of the Nominee (max 500 words):

Ravi Kumbham

Education: M.Sc (Mechanical Engineering) - National University of Singapore.

Experience- 7 Yrs in EPCM (Engineering, Procurement and Construction) Organization.

Professional Certification- PMP.

I have been working in Project Management profession for the past 7 years in an EPCM company which is a strong matrix structured organization where project management plays a crucial role.

As a Senior Project Engineer executed small scale projects upto \$5MM from Estimation till the project closure with an overall responsibility for clients such as ExxonMobil and Shell. Overall engineering coordination done / ongoing for large scale project size of \$100MM chemical plant, \$250MM of Biotech Plant.

Short description of how nominee intend to contribute to the chapter (max 500 words):

I see there is a huge potential of growth possible by bridging the gap between the PMI and the Project Management practitioners' by profession. All the process industries (oil & gas, refinery, petrochemical, chemicals, specialty chemicals, Pharmaceuticals / Biotech), EPCM (Engineering, Procurement, Construction Management) organizations are strong matrix structured where project management plays crucial role. By making PMI & these professionals closer to each other benefit both with knowledge transfer from PMI, sharing problems faced by organizations.

So I want to contribute for the above area to the best of my ability.
